

SynthETEc™ ATF

MAKING THE BEST TRANSMISSIONS PERFORM EVEN BETTER

We engineer the most reliable, durable, and best performing remanufactured transmissions in the industry. Why not use a synthetic ATF that's designed to make your transmission even better?

SynthETEc™ is a specially developed synthetic ATF that improves the performance and longevity of automatic transmissions. We're so confident in our ATF that it's even covered in our nationwide, no-hassle warranty.

See what SynthETEc™ can do for your transmission:

- >> Extended transmission life
- >> Improved shifting execution
- >> Exceptional thermal and oxidative stability
- >> Excellent low temperature performance
- >> Enhanced long term friction handling

To learn more about ETE REMAN's state-of-the-art synthetic ATF, SynthETEc™, call us today at **800.934.9479**.

SynthETEc™ ATF is not available in stores. Use of this product is covered by your warranty, but not a condition of it. SynthETEc™ ATF is not approved for use in CVT applications.
